

computer relocation services

ACT Logistics appreciates the specialist demands of Computer Relocation and understands the costly implications if the equipment is not relocated correctly. We provide a comprehensive Computer Relocation Service covering PC relocation, Computer Disposal and project management.

All equipment is moved with the utmost care by our specially trained team and insurance options are available against loss or damage.

If required, we can provide extensive temporary storage facilities for the safe keeping of IT equipment.

FURTHER INFORMATION

Whatever the size or complexity of your relocation project, contact us on 1300 727 516 or via email: sales@actlogistics.com.au to discuss your requirements or to arrange a site survey and no obligation quotation.

PROJECT MANAGEMENT

ACT Logistics ensures costs and disruption are kept to a minimum, allowing you to get back to work within the shortest possible timeframe.

At the start of any move, your dedicated project manager will conduct a thorough site survey, cataloguing the pack and unpack location of every item to be moved. We will identify any special packing or transportation requirements and specify safe handling tools for heavy items.

To minimise disruption, most relocations are conducted outside of normal business hours. We often operate 24 hour weekend or overnight shift patterns to ensure relocations are completed as quickly as possible. Your project manager will hand pick a team of professional removals experts who will work according to our carefully prepared plan. However, we are flexible enough to accommodate last minute changes and requests, pulling out all the stops to complete the move to your complete satisfaction.
