

storage facility

With warehousing capabilities in Brisbane, Sydney, Melbourne and Perth, ACT Logistics can provide short and long term storage for more than 3,000 pallets of IT equipment on a national basis.

These facilities are available for:

- Bulk storage
- Excess stock (for new product prior to installation)
- During the relocation process

We also provide free quarantine services (up to 2 weeks) for any obsolete product that we purchase or provide data destruction services on.

This is backed by industry leading transport solutions and international logistics capabilities.
